Re: Notice of Ex Parte – IP-Enabled Services, WC Docket No. 04-36; E911
Requirements for IP-Enabled Service Providers, WC Docket No. 05-196

Dear Ms. Dortch:

On behalf of SBC Communications Inc. (SBC), James K. Smith and the undersigned met with Tom Navin and Julie Veach of the Wireline Competition Bureau on Monday, September 26, 2005. During the course of the meeting, we described the efforts that SBC has undertaken to make 911 services available to VoIP providers. We explained that SBC is willing to assign Emergency Service Query Keys (ESQKs) to VoIP providers (and their vendors) in a manner that takes into account the interests of both the VoIP providers and the state and local 911 authorities who handle VoIP 911 calls. We also discussed the North American Numbering Council's recent recommendations regarding the creation of a national routing number administrator, and we noted that SBC supports the goals of those recommendations.

Pursuant to section 1.1206 of the Commission's rules, this letter is being filed electronically with the Commission.

Sincerely,

/s/ *Jack Zinman*

Jack Zinman
